

# Key Skills

<b>Knowledge, Skills and Understanding breakdown for Design and Technology</b>				
<b>Year 1</b>				
	<b>Developing, planning and communicating ideas</b>	<b>Working with tools, equipment, materials and components to make quality products</b>	<b>Evaluating processes and products</b>	
<b>Expected</b>	Can they think of some ideas of their own? Can they explain what they want to do? Can they use pictures and words to plan? Can they explain what they are making? Can they make simple plans before making objects, e.g. Drawings, arranging pieces of construction before building?	Which tools are they using? Can they make a structure/ model using different materials? Is their work tidy? Can they make a product which moves? Can they cut materials using scissors? Can they describe the materials using different words?	Can they describe how something works? Can they talk about their own work and things that other people have done? Can they make their model stronger if it needs to be? Can they say why they have chosen moving parts? Can they talk with others about how they want to construct their product? Can they select appropriate resources and tools for their building projects?	
<b>Breadth of Study</b>				
<b>Cooking &amp; Nutrition</b>	<b>Textiles</b>	<b>Mechanisms</b>	<b>Use of materials</b>	<b>Construction</b>
Can they cut food safely? Can they describe the texture of foods? Do they wash their hands and make sure that surfaces are clean? Can they think of interesting ways of decorating food they have made, eg, cakes?	Can they describe how different textiles feel? Can they make a product from textiles by gluing?	Can they make a product which moves? Can they cut materials using scissors? Can they describe the materials using different words? Can they say why they have chosen moving parts?	Can they make a structure/model using different materials? Is their work tidy? Can they make their model stronger	Can they talk with others about how they want to construct their product? Can they select appropriate resources and tools for their building projects? Can they make simple plans before making objects, e.g. drawings, arranging pieces of construction before building?

# Key Skills

<b>Emerging</b>	<p>Can they explain what went well with their work? If they did it again, can they explain what they would improve? Can they join things (materials/ components) together in different ways? Can they describe their design by using pictures, diagrams, models and words?</p>
-----------------	--

# Key Skills

<b>Knowledge, Skills and Understanding breakdown for Design and Technology</b>				
<b>Year 2</b>				
	<b>Developing, planning and communicating ideas</b>	<b>Working with tools, equipment, materials and components to make quality products</b>	<b>Evaluating processes and products</b>	
<b>Expected</b>	Can they think of ideas and plan what to do next? Can they choose the best tools and materials? Can they give a reason why these are best? Can they describe their design by using pictures, diagrams, models and words?	Can they join things (materials/ components) together in different ways?	Can they explain what went well with their work? If they did it again, can they explain what they would improve?	
<b>Breadth of Study</b>				
<b>Cooking &amp; Nutrition</b>	<b>Textiles</b>	<b>Mechanisms</b>	<b>Use of materials</b>	<b>Construction</b>
Can they describe the properties of the ingredients they are using? Can they explain what it means to be hygienic? Are they hygienic in the kitchen?	Can they measure textile? Can they join textiles together to make something? Can they cut textiles? Can they explain why they chose a certain textile?	Can they join materials together as part of a moving product? Can they add some kind of design to their product?	Can they measure materials to use in a model or structure? Can they join material in different ways? Can they use joining, folding or rolling to make it stronger?	Can they make sensible choices as to which material to use for their constructions? Can they develop their own ideas from initial starting points? Can they incorporate some type of movement into models? Can they consider how to improve their construction?

# Key Skills

<b>Exceeding</b>	<p>Can they use equipment and tools accurately?</p> <p>Can they explain what they changed which made their design even better?</p> <p>Can they describe their design using an accurately labelled sketch and words?</p> <p>How realistic is their plan?</p>
------------------	---

<b>Knowledge, Skills and Understanding breakdown for Design and Technology</b>				
<b>Year 3</b>				
	<b>Developing, planning and communicating ideas</b>	<b>Working with tools, equipment, materials and components to make quality products</b>	<b>Evaluating processes and products</b>	
<b>Expected</b>	<p>Can they show that their design meets a range of requirements?</p> <p>Can they put together a step-by-step plan which shows the order and also what equipment and tools they need?</p> <p>Can they describe their design using an accurately labelled sketch and words?</p> <p>How realistic is their plan?</p>	<p>Can they use equipment and tools accurately?</p>	<p>Can they explain what they changed which made their design even better?</p>	
<b>Breadth of Study</b>				
	<b>Cooking &amp; Nutrition</b>	<b>Textiles</b>	<b>Mechanisms</b>	<b>Use of materials</b>
				<b>Construction</b>

## Key Skills

<p>Can they choose the right ingredients for a product?          Can they use equipment safely?          Can they make sure that their product looks attractive?          Can they describe how their combined ingredients come together?          Can they set out to grow plants such as cress and herbs from seed with the intention of using them for their food product?</p>	<p>Can they join textiles of different types in different ways?          Can they choose textiles both for their appearance and also qualities?</p>	<p>Do they select the most appropriate tools and techniques to use for a given task?          Can they make a product which uses both electrical and mechanical components?          Can they use a simple circuit?          Can they use a number of components?</p>	<p>Do they use the most appropriate materials?          Can they work accurately to make cuts and holes?          Can they join materials?</p>	<p>Do they select the most appropriate materials?          Can they use a range of techniques to shape and mould?          Do they use finishing techniques?</p>
<b>Exceeding</b>	<p>Can they evaluate their product, thinking of both appearance and the way it works?          Do they take time to consider how they could have made their idea better?          Do they work at their product even though their original idea might not have worked?          Can they suggest some improvements and say what was good and not so good about their original design?</p>			

# Key Skills

<b>Knowledge, Skills and Understanding breakdown for Design and Technology</b>				
<b>Year 4</b>				
	<b>Developing, planning and communicating ideas</b>	<b>Working with tools, equipment, materials and components to make quality products</b>	<b>Evaluating processes and products</b>	
<b>Exceeding</b>	Can they come up with at least one idea about how to create their product? Do they take account of the ideas of others when designing? Can they produce a plan and explain it to others? Can they suggest some improvements and say what was good and not so good about their original design?	Can they tell if their finished product is going to be good quality? Are they conscience of the need to produce something that will be liked by others? Can they show a good level of expertise when using a range of tools and equipment? Do they work at their product even though their original idea might not have worked?	Have they thought of how they will check if their design is successful? Can they begin to explain how they can improve their original design? Can they evaluate their product, thinking of both appearance and the way it works? Do they take time to consider how they could have made their idea better?	
<b>Breadth of Study</b>				
<b>Cooking &amp; Nutrition</b>	<b>Textiles</b>	<b>Mechanisms</b>	<b>Use of materials</b>	<b>Construction</b>

## Key Skills

<p>Do they know what to do to be hygienic and safe? Have they thought what they can do to present their product in an interesting way?</p>	<p>Do they think what the user would want when choosing textiles? Have they thought about how to make their product strong? Can they devise a template? Can they explain how to join things in a different way?</p>	<p>Can they add things to their circuits? How have they altered their product after checking it? Are they confident about trying out new and different ideas?</p>	<p>Can they measure carefully so as to make sure they have not made mistakes? How have they attempted to make their product strong?</p>	<p>Can they use a range of advanced techniques to shape and mould? Do they use finishing techniques, showing an awareness of audience?</p>
<b>Emerging</b>	<p>Can they evaluate appearance and function against the original criteria? Can they explain how their product will appeal to the audience? Do they take a user's view into account when designing?</p>			

### Knowledge, Skills and Understanding breakdown for Design and Technology

#### Year 5

	<b>Developing, planning and communicating ideas</b>	<b>Working with tools, equipment, materials and components to make quality products</b>	<b>Evaluating processes and products</b>
<b>Expected</b>	<p>Can they come up with a range of ideas after they have collected information? Do they take a user's view into account when designing? Can they produce a detailed step-by-step plan? Can they suggest some alternative plans and say what the good points and drawbacks are about each?</p>	<p>Can they explain why their finished product is going to be of good quality? Can they explain how their product will appeal to the audience? Can they use a range of tools and equipment expertly? Do they persevere through different stages of the making process?</p>	<p>Do they keep checking that their design is the best it can be? Do they check whether anything could be improved? Can they evaluate appearance and function against the original criteria?</p>

## Key Skills

<b>Breadth of Study</b>				
<b>Cooking &amp; Nutrition</b>	<b>Textiles</b>	<b>Mechanisms</b>	<b>Use of materials</b>	<b>Construction</b>
Can they describe what they do to be both hygienic and safe? How have they presented their product well?	Do they think what the user would want when choosing textiles? How have they made their product attractive and strong? Can they make up a prototype first? Can they use a range of joining techniques?	Can they incorporate a switch into their product? Can they refine their product after testing it? Can they incorporate hydraulics and pneumatics?	Are their measurements accurate enough to ensure that everything is precise? How have they ensured that their product is strong and fit for purpose?	Are they motivated enough to refine and further improve their product using mouldable materials?
<b>Exceeding</b>	Does their product met all design criteria? Did they consider the use of the product when selecting materials? Can they justify their plan to someone else? Do they consider culture and society in their designs?			

<b>Knowledge, Skills and Understanding breakdown for Design and Technology</b>		
<b>Year 6</b>		
<b>Developing, planning and communicating ideas</b>	<b>Working with tools, equipment, materials and components to make quality products</b>	<b>Evaluating processes and products</b>

# Key Skills

<b>Expected</b>	Can they use a range of information to inform their design? Can they use market research to inform plans? Can they work within constraints? Can they follow and refine their plan if necessary? Can they justify their plan to someone else? Do they consider culture and society in their designs?	Can they use tools and materials precisely? Do they change the way they are working if needed?	How well do they test and evaluate their final product? Is it fit for purpose? What would improve it? Would different resources have improved their product? Would they need more or different information to make it even better? Does their product meet all design criteria? Did they consider the use of the product when selecting materials?		
	<b>Breadth of Study</b>				
	<b>Cooking &amp; Nutrition</b>	<b>Textiles</b>	<b>Mechanisms</b>	<b>Use of materials</b>	<b>Construction</b>
	Can they explain how their product should be stored with reasons? Can they set out to grow their own products with a view to making a salad, taking account of time required to grow different foods?	Have they thought about how their product could be sold? Have they given considered thought about what would improve their product even more?	Can they use different kinds of circuit in their product? Can they think of ways in which adding a circuit would improve their product?	Can they justify why they selected specific materials? How have they ensured that their work is precise and accurate? Can they hide joints so as to improve the look of their product?	Can they justify why the chosen material was the best for the task? Can they justify design in relation to the audience?
<b>Exceeding</b>
