

Year 3AH Autumn Newsletter

Mr A Hargreaves September 2021

Weekly Timetable in Year 3:

Every day- Reading book and reading record book.

Wednesday - Homework due in.

Wednesday- Come to school in your PE kit.

Friday - Homework and spellings sent home.

Drinks and snacks:

Your child may bring a water bottle to school each day (water or juice) Please make sure the bottle is labelled.

A healthy snack (e.g. fruit/cereal bar) may be sent in for break time.

Welcome to Year 3AH. I hope you have had a lovely summer holiday and I look forward to getting to know you and your child over the forthcoming weeks.

Firstly, I would like to introduce myself. I have been a teacher at Bridgewater for eight years. As well as being a Year 3 teacher, I have taught in Year 4 and Year 5. Not only am I a class teacher, I am the lead of the P.E within the school. My favourite subjects to teach are Maths and P.E and I am looking forward to this term as we are lucky to have a specialist P.E teacher (Miss Payne) working with us. I am sure both the children and myself will enjoy this.

This newsletter provides an overview of what your child will be learning about in the Autumn term. I hope to make the start back to school as easy as possible for you and your child, and am looking forward to getting back to normal- as much as we can! If you have any concerns, then please speak to me at the door.

Reading and Spelling

Reading books should be sent into school each day to be checked.

Stickers will be awarded every Friday to those who have read at least 4 times. Please make sure an adult dates and signs the record book each time.

Our spelling test will be on a Friday and new spellings will then be sent home to learn for the following week. You can take the spelling sheet out of the homework folder to keep at home.

Maths:

We will be consolidating our understanding of place value, addition and subtraction.

English:

Our writing will be based on the classic children's book 'The Big Friendly Giant' and other books by Roald Dahl.

Science:

The challenge question is: 'Are you attractive enough?' Our learning will focus on forces, magnetic and non-magnetic materials.

History and Geography:

This half term our topic question is: "What was life like in Ancient Greece?" We will be learning about Ancient Greece and focus on the creation of the Olympic Games and the events it included, the difference between those who lived in Athens and Sparta and the Gods the Ancient Greeks believed in. After half term, we will learn about modern day Greece and Europe.
