

## **Bridgewater Primary School** **Pupil Premium Policy Statement 2016-2017**

### **Introduction**

A good education is the key to improving young people's life chances. This is particularly true for children from low-income families and looked after children (LAC), who are far less likely to leave school with good GCSE results than other children. The Pupil Premium, additional to the main funding a school receives, aims to address narrowing the gaps in attainment between these pupils and their peers by ensuring that funding to tackle disadvantage reaches those who need it most.

The Pupil Premium has a number of wider aims:

- Increase social mobility;
- Enable more pupils from disadvantaged backgrounds to get to the top Universities;
- Reduce the attainment gap between the highest and lowest achieving pupils nationally

Individual schools decide how the Pupil Premium (allocated per FSM pupil and LAC pupil) is spent since they are best placed to assess what additional provision should be made for the individual pupils within their responsibility. Schools are held accountable for how use the additional funding to support these pupils. Performance tables will capture the achievement of those deprived pupils covered by the Pupil Premium. Accountability will ensure that parents and stakeholders are made fully aware of the attainment of these pupils.

Simply spending more on children from less affluent backgrounds, however, will not necessarily improve their learning or their aspirations. There is no direct link between spending on schools and outcomes for pupils. Extensive research in this area (Sutton Trust) shows that it is a complex issue, indicating that the way the money is spent is crucial. So if the Pupil Premium is to succeed in achieving its ambitious goals, the choices that schools make in allocating the money will be vital so that the funding can help raise pupils' attainment and aspirations.

Narrowing the gap for pupils can take many different forms from targeted teaching intervention to pastoral support, tackling challenging behaviour, attendance and punctuality and full engagement in school activities.

### **Pupil Premium Amount**

The level of the premium in 2015-2016 is £1300 per pupil for pupils eligible for free school meals (FSM) and for pupils in care who have been continuously looked after for six months £1600.

### **Monitoring**

The impact of expenditure will be an integral part of the monitoring and evaluation of school effectiveness and analysis of pupil progress.

## **Sutton Trust Toolkit to Improve Learning Summary Overview**
